

Partial Revocation of Recall of Specified Dietary Supplements

Background

Acting in accordance with section 40 of the Food Act 1981, the Minister for Food Safety directed by way of Recall Notices dated the 1st day of May 2003, 2nd day of May 2003, 4th day of May 2003 and 8th day of May 2003, as amended by the partial revocation notices dated 5th day of May 2003 and 14th Day of May 2003 (the Recall Notices), the recall of specified dietary supplements. The Recall directions applied to all sellers, distributors and importers of the products specified in those Notices, manufactured by Pan Pharmaceuticals Limited of Australia. They were directed to immediately stop the sale and distribution of those products and to retain those products in safe custody until further notice.

Now, acting in accordance with section 40 of the Food Act 1981 and section 15 of the Interpretation Act 1999, I revoke the directions contained in the Recall Notices dated the 1st day of May 2003, 2nd day of May 2003, 4th day of May 2003 and 8th day of May 2003 (as amended by the partial revocation notices dated 5th day of May 2003 and 14th day of May 2003) in relation to these products described below in columns 1,2 and 3 **except for those batch numbers of each product specified in the fourth column:**

List of Products

*The AUST L or AUST R can be located on the front panel of the label, usually in a lower corner. It is a 5 digit number prefixed by the letters AUST R or AUST L. As many product names are similar, it is important that this number is checked.

#Batch and expiry details are often located on the back panel of the label on bottles or end flaps on boxes. These can be a combination of letters and/or numbers, but are prefixed with letters or a symbol which indicate that the number is the batch number (for example, 'Batch No.', 'B', 'Lot Number', 'Lot No.'). Expiry dates are the month and year after which the goods should not be used, and have a prefix which indicates that the following information is the expiry date (for example, 'Expiry', 'Expires', 'Exp. Date', 'Use before').
